

SHIVPAL RATHOD

Python Full-Stack Developer • AI & Salesforce Agentforce Specialist
+91 79956 47094 • shivpalrathod1122@gmail.com • [LinkedIn](#) • [GitHub](#) • Hyderabad, India

EDUCATION

B.Tech, Computer Science & Engineering — CMR Technical Campus, Hyderabad

2023 – 2027

CGPA: 7.61 / 10 | Relevant Coursework: Data Structures & Algorithms, OOP, DBMS, Computer Networks, Operating Systems

EXPERIENCE

Software Engineer Intern — Bluestock Fintech (Remote)

Dec 2025 – Jan 2026

- ▶ **Delivered 5+ production backend features** end-to-end using Python & Django for a live fintech platform, contributing to a codebase actively serving real users in production.
- ▶ **Optimized API response time by ~30%** by identifying and resolving performance bottlenecks across 3 modules; eliminated 20+ runtime bugs improving system stability and reducing error rates significantly.
- ▶ **Collaborated in agile sprints** using Git workflows, PR reviews, and PEP 8-compliant, well-documented code standards — mirroring industry-level development practices.

PROJECTS

AI-Powered Placement Management System | Node.js · Express.js · MongoDB · Passport.js · Google OAuth · EJS [github →](#)

- ▶ **Engineered a full-stack campus recruitment platform** enabling placement officers to manage 200+ students, companies, interview schedules, and results via a centralized dashboard — reducing manual coordination effort by an estimated 60%.
- ▶ **Architected secure multi-strategy authentication** (Passport.js + Google OAuth + session-based auth) with RBAC, RESTful API routes via Mongoose ODM, and automated CSV report generation for placement analytics.

AI Python Visual Compiler | Python · Django · Anthropic Claude API · REST API · HTML/CSS [github →](#)

- ▶ **Built an AI-powered browser-based IDE** integrating Anthropic Claude API (LLM) to generate real-time, step-by-step code execution explanations — reducing debugging time for beginner developers by making error traces human-readable.
- ▶ **Designed a sandboxed Django REST backend** for secure server-side code execution, preventing injection attacks while serving live output to a responsive frontend — full-stack implementation with AI layer.

Student Management System | Python · Django · SQLite · RBAC · REST API [github →](#)

- ▶ **Developed a production-grade CRUD application** managing 500+ student records with role-based access control (RBAC), session management, and search/filter — achieving 100% test coverage on all core operations.

TECHNICAL SKILLS

Languages: Python, SQL, Java

Backend: Django, Flask, Node.js, Express.js, REST APIs, Django REST Framework

Frontend: React, HTML5, CSS3, Bootstrap, EJS, Responsive Design

AI / LLM: Anthropic Claude API, Prompt Engineering, AI Agent Workflows, Generative AI, Agentic AI

Salesforce: Agentforce (Certified), Einstein AI, CRM Automation, SOQL, Apex, LWC, Trailhead

Databases: MongoDB, SQLite, MySQL, Mongoose ODM

Tools / DevOps: Git, GitHub, VS Code

CERTIFICATIONS & ACHIEVEMENTS

 **Salesforce Certified Agentforce Specialist** — Salesforce / Trailhead, Dec 2025 (ID: 7322714) | [Verify](#)

GenAI Powered Data Analytics — TCS • Python Django MySQL — Infosys Springboard • HTML Essentials — Cisco Networking Academy • IoT — NPTEL
